

DUBAI
AIRSHOW

12. - 16.11.2017 - VISIT US ON STAND 617

Dear Business Partner,

For first time this year, Krüger Aviation will exhibit at the Dubai Airshow. Among others, our main focus will be presentation of our expertise in VIP Interior parts.

You can find us on the German Pavilion at booth 617.

Krüger Aviation stands for Solutions in Plastics.

At the Expo you'll be able to meet with experts from our four main Business Units:

- Component Services
- Material Advice and Supply
- Technical Support
- Innovation Center

So come and get the chance to develop great new ideas and insights about how we all can benefit from working together. Feel free to chat with our experts and ask any questions you might have about our products. We will give you an insight in the various production methods from Krüger. Discover, for example, vacuum deep drawing, 3D printing, injection molding, thermoforming and parts made manually by highly skilled workmanship.

In particular, we will be pleased to show our new mirror developments such as this years' Crystal Cabin Finalist, the semi-transparent premium K-Reflexion KRX070 mirror and new variations for individual design solutions.

We will be glad to see you at our booth from November 12th to 16th at the Airshow in Dubai!
